

Fridays for future

1. When the air in the cities is no longer breathable
when all life is threatened, and we run towards extinction.
then it's time to think
then it's time to recognize
that our greed always wants more
If so, that makes us really poor.
2. Forever is no punishment, eternally the only way.
and when the road ends, take the narrow path.
Do not be blinded, by the words and by the waiting
Otherwise, life will end, get into action
today and every day, plant the new garden.

Refrain:

Fridays for future, glimmer of hope
Young moves the old, glimmer of hope
we are all asked to be
humble to avoid
the biggest catastrophe in the world.

We are here, we are loud, 'cause they're stealing our tomorrow.
we are here, we are loud 'cause they're stealing all our lives.
we are here, we are loud, just cheap living not allowed
We are here in many countries
Come on and join the crowd.

Solo

Refrain

We are here, we are loud, 'cause they're stealing our tomorrow.
we are here, we are loud 'cause they're stealing all our lives.
we are here, we are loud, just cheap living not allowed
We are here in many countries
Come on and join the crowd.

We are here, we are loud, 'cause they're stealing our tomorrow.
we are here, we are loud 'cause they're stealing all our lives.
